

Evolution
Adaptation Analyses

Name:
Period:

Look at the pictures that have been provided for you. What are the adaptations of those organisms? Describe both the part and how it helps the organism to survive long enough to reproduce and pass on its genes that carry those advantageous traits.

organism	special body part	how it helps with survival
artichoke		
cactus		
jellyfish		
polar bear		
scorpion		
starfish		
tarantula		
venus flytrap		
vulture
