

Drawing Dust

Name: _____

Period: _____

As you watch the video that used microscopes to show what dust is made of, think about where the things in dust come from. In each of the four boxes below, draw something that has parts that are turned into dust, and complete the sentence under the box. Finally, finish the sentences at the bottom of this paper.

Tiny particles of _____
are found in dust.

Tiny particles of _____
are found in dust.

Tiny particles of _____
are found in dust.

Tiny particles of _____
are found in dust.

Dust is created when...

In dust in my house, I would expect to find parts of...

In dust outside, I would expect to find parts of...
