

Fall Semester Reflection

Name:

Period:

Think about the grade you earned for your Fall Semester in science. Write it in the box below:

If you earned an F, you will be attending Saturday school this semester to try and raise your grade. What will you do differently in class and in Saturday school to be more successful in science?

If you earned a D, C, or B, write below about what you could do differently this semester to make your grade in science even better.

If you earned an A, write below about what sort of things you did that helped to make you so successful in science class.
