

Housefly

Name:

Period:

As you watch the incredibly disgusting "Housefly" video segment, keep looking for proof that the housefly is alive. In each of the four boxes below, draw examples from the video that demonstrate that the housefly is alive, and explain why you know this.

Characteristics of Living Things

- they have cells
- they sense and respond to change
- they reproduce
- they have DNA
- they use energy
- they grow and develop

All Living Things Need:

- water
- air
- a place to live
- food

I know the fly is alive because...

I know the fly is alive because...

I know the fly is alive because...

I know the fly is alive because...
