

Structure and Function in Living Systems

Name:

Joint Functions Story

Period:

Look at Figure 3 on p.474 of your textbook, then read about each of the three main types of joints on p.474. In the boxes below, illustrate a short story that has examples of how you can use each of these joints in the boxes below. Label each of the joints (gliding, ball-and-socket, and hinge) as you show them.
