

Keys to the Kingdom

Name:

Period:

Use Chapter 11, Section 2 to help you with this assignment. Below is a list of facts about the different kingdoms that scientists use to label organisms. Put each fact in the correct box for its kingdom. Each fact will be used only once.

- have specialized sense organs
- break down material outside their body and then absorb the nutrients
- usually green
- complex organisms with no cell walls
- are single-celled or simple multicellular organisms
- all make food through photosynthesis

CoolClips.com
