

Science Class Analysis

Name:

Period:

How do you know when you are in science class studying science, and not in some other class? Explain how you know this by finishing the sentences below. Here is an example of how to support your reasoning:

I know science class is NOT Music class because we are not using band instruments.

Notice how the sentence describes something that you are NOT doing. Keep using this “not ... not” sentence structure when you write your sentences.

I know science class is NOT P.E. class because . . .

I know science class is NOT Language Arts class because . . .

I know science class is NOT Social Studies class because . . .

I know science class is NOT Math class because . . .
